Papers

Instructions

```
TASK=Traffic
METRIC=MSE
PATH=data
Reproduce the {TASK} experiment
and utilize {METRIC} for
evaluation.
Datasets are under path {PATH}.
Data preprocess code is provided
to you.
```

Processing Code

```python
class Dataset_Custom(Dataset):
    def __init__(self, root_path,
    flag='train', size=None,
    features='M',
    data_path='traffic.csv',
    target='OT', scale=True,
    freq='h'):
```
